

## Monadnock Muzzle Loaders Blackpowder/Muzzleloader (BP/ML) 25, 50 & 100 Yard Off-Hand Rifle Match

**When:** Sunday, August 29th, 3:00 to 5:00 p.m. (or when we get done)

**Where:** CCF&G 100 yd. covered range

**Course of fire:**

Sight in period, 30 minutes  
25 yards, 5 rounds offhand in 30 minutes  
50 yards, 5 rounds offhand in 30 minutes  
100 yards, 5 rounds offhand in 30 minutes  
Targets will be standard NMLRA targets.

**Equipment:**

Any rifle that loads from the front with no restriction as to sights, propellant or projectile. Black power cartridge rifles will be allowed only if the ammunition is loaded with lead (nonjacketed) bullets and black powder or black powder substitute.

This shoot will teach us, as an organization, how to run a match and, as individual shooters, how to load and shoot under NMLRA rules. This will better prepare us for competition at other ranges. I don't expect the relays to last the full 30 minutes but we should get started as soon as we can so we won't be there all night.

I would also like to take a survey as to equipment, loads and loading/cleaning procedures that we use. I will publish this information along with the scores (if we hit anything).

No prizes. No pressure. Come and miss the targets with us!

Range Officer: Jeff Younie

"Hey! They're lighting their arrows! . . . Can they DO that?"
